

CITY OF • VILLE DE  
**MIRAMICHI**

## **ELECTRIC VEHICLE (EV) CHARGER INCENTIVE POLICY**

The Engineering Department will receive applications for a financial incentive for electric vehicle charging devices for businesses.

### **Maximum incentives as follows:**

- Level 2 chargers (based on a 208 - 240 volt AC power using a SAE Jt772 connector) - \$ 2,500
- Level 3 chargers (based on a 400 - 900-volt DC fast charging station and shall deliver the equivalent of 6 - 30 km per minute of charging) - \$17,000

Chargers may be installed at an Applicant's place of business but shall be available for use by patrons of the business and/or members of the public. Incentives will not be provided for chargers intended solely for the use of the applicant's employees.

Incentives will be issued on a first come, first served basis and will be subject to a maximum total program budget approved annually by City Council.

Applications shall be made by the owner of a business located in the City of Miramichi. Applications shall include all relevant contact information, proposed equipment to be used, timeline of installation, sketch of location, and any other relevant information deemed necessary by the Director of Engineering.

Incentives will only be issued upon confirmation of installation.

The owner of the electric charger may or may not charge a fee for the service.

The Director of Engineering shall be the administrator of the EV grant program.

Application will be received until October 1st of each year. Installation must be completed by December 31st of the year of the application for incentives to be issued.

The city will accept applications for incentives for all chargers installed after January 1, 2023.
